NEWS FROM NEW-JERSEY.

JERSEY CITY.

THEY ARRESTED THE WRIT SERVER. Semuel Hambridge, an employe of the Cobb Calcium light Company, was discharged by the company last Schnesday. He demanded his salary, and he was old he would have to wait. Hambridge obtained a of stachment from Judge Daly, of Hobeken, and the paper was given to Constable Thomas Wright to Wright went to the new opera house in oy City where the Calcium Company had property and made his way to the property room. He told fir. Mullone, the lesses of the theatre. that he intended b lovy on the goods of the Calcium Light Company, nd Mr. Mullone ordered him out of the theatre Wright insisted upon levying on the goods. Mr. Multone obtained a warrant from Justice Weed for Wright's arrest as a disorderly person and Wright was arrested. He was not released until early vesterday morning. The Calcium Light Company in the meantime had removed its property.

MEAN TRICK TO PLAY ON A CHILD.

Mery McKensle, eleven years old, daughter of a widow who lives at No. 302 Third-st., was returning to her home last night with a package which contained clock and shawl valued at \$30 when she was accosted to asked the child to take it to a house across the street for him. She said she would, and the young man took her bundle to keep until she returned. girl was unable to find the person to whom the young man sent her. When she returned he had disappeared. the told a policeman of the occurrence, and he examined the parcel the young man had given her. It was a biggrette box filled with oyster snells.

A meeting was held last night by the Central Branch, Brish National League, at No. 195 Montgomery-st. A report was read from the secretary, M. B. Holmes, to the effect that a resolution adopted at the last meeting of the League advising harmony and union in the Irish party had been sent to the Irish leaders. He had re-ceived a favorable reply from John Dillon, but no reply from Mr. Redmond, to whom had been sent a copy of the resolutions. After a brief discussion the Central Branch decided to recognize in the future the followers of Justin McCarthy, and to forward to him all money collected to advance the interests of Home Rule in Ireland.

TO ACT UPON VETOES OF THE MAYOR. Mayor Henry H. Truman has filed with City Clerk Stetson three veto messages, which will come up for action before the Common Council this evening. The first is a veto of the iniquitous attempt at a steat on the pert of the members of the Sewerage Committee, all Democrats, who have taken advantage of a clause in the sewerage law allowing \$1 a day for meetings of the committee, and have sent in bills for every day since March 28 when the work of the committee began. Mayor Truman presents a letter from his counsel, Colt & Howell, of Newark, in which they say there is no color of law for the payment of the committee for more than the thirty regular and formal meetings. The Mayor also se-clines to approve the bill for \$800 of Horace Steton for services as clerk and secretary of the Sewer Committee. The second veto is of the resolution to advertise for bids on the "outlet" and "valley" sections of the sewer system, on the ground that the proper provision for the funds to carry out this part of the work has not been made. In this connec-tion Mayor Truman scores the Finance Committee for neglect of duty and failure to prepare the temporary note for impending paym s to the contractors, thus jeopardising the city's credit. The third veto is of the resolution for the payment of the driver of the truck company.

A quiet movement is on foot to have Camillus G. Kidder nemitated as a citizens' candidate for Mayor in opposition to Lawrence T. Felt, who will undoubtedly be the regular Democratio nominee.

ELEZABETH.

The city authorities will vigorously contest the proposed salary grab by the sixteen Aldermen elected in 1889. The old ordinance allowed Councilmen to draw \$500 a year for their services, while the new one cut this down to \$200 a year. The Councilmen who are bringing suit say that this is an expenditure. The the suit should go against the city in the Circuit Court.

Joseph Chesney got drunk on Seturday night, went home, smashed all the furniture in his house, chased his and family out of doors with an axe, and tried to burn down the building. The man made a desperate before he was overpowered by the police. One of the big sorrel horses used for drawing the

MISSIONARY WORK IN INDIA.

A large congregation assembled at the Asbury Methodist Episcopal Church last evening to listen to an address by Bishop James M. Thoburn, on "The Work of the Methodist Episcopal Church in Bishop Thoburn was been in Ohio, and for the nat thirty years has been in India. Four years ago of nearly 300,000,000 people. The bishop spoke of how from a small beginning they have extended the work until now they are preaching in thirteen different tempers. Last year 20,000 were haptized and flow \$2,000 more are awaiting haptism. The missionaries of the dimensional are experiencing similar results.

IN THE POLITICAL FIELD.

As already announced, the political business to come before the Republican State Committee at his meeting is the calling of the State Convention select delegates-at-large for Minneapolis. Albany is generally favored as the place, and April 26 or 27 as the time. Some members of the committee think that the convention should not be held until the last day allowed, the idea being that the Democratic Legislature will have completed its rescully work by that time and its record may then be discussed in its fulness by the committee. But the majorky of the leaders appear to think that the Legislature will not finish its jobbery before May 7, and as the convention must be held on or before that date, it may just as well be held a week or so earlier. In either case it will be held late enough to afford a contrast to the "Kodak" convention of Hill and

There is no truth in the story published the other day that the New-York Republican leaders are pre-paring to bring out a "favorite son," as a Presidential candidate and that the delegates from this State will go to Minneapolis instructed to vote for him. The work of instructing delegates this year in this State will be left entirely to the other side, the Hill gang. New-York Republicans will go to the National Convention entirely free to support the man who they think will be the strongest candidate for the party.

Politicians are beginning to ask who will head the state delegation this year, or, in other words, will the four delegates at large be the same as in 1888-Platt, Miller, Depew and Hiscock. No one seems to be prepared to answer the question. Mr. Platt declines to discuss it, except to say that he is perfectly willing to step aside in favor of somebody else and that he will be entirely content to go as a humble representa-tive of his Congress District.

Notwithstanding all that has been said in Democratic papers to the contrary, there is really no trouble in the XiIth District Republican Association of a serious nature. Mr. Hilliard is the recognized leader of the party there. He has devoted his time and money to building up the organization. He has been successful and enjoys the confidence of the Republi cans of the district. The few malcontents who are seeking to give him trouble do not have the sympathy of the party erganization.

The new Republican Executive Committee of Kings County will hold its opening meeting to morrow even-ing, at the party headquarters, Lawrence-st., near Ful-It is understood that Israel F. Fischer will be elected chairman. He has held the office for two terms, during 1289 and 1890, and is looked upon as being well equipped for the place.

A vigorous effort is being put forth to make the old VIIth Ward of Brooklyn what it once was—the banner Republican ward of the city. With this end in view, the Tippecanoe and Invincible Republican clubs have been consolidated into one powerful organization, which will hereafter hold meetings every Monday even ing, at the clubhouse, No. 506 Kent ave. By this con solidation, party differences in the northern part of the ward have been harmonized and an excellent feeling produced on all sides. Lawrence J. McAlpin is president of the club and Thomas P. Foden secretary. Both of them are hardworking Republicans and devoted to the interests of the association.

Just before the last State campaign opened, a fer young colored men of the XIth Assembly District started a modest little paper, "The Union Times." It was Republican to the core, and under the management of Christopher Stewart soon made itself popular and potential among the negro voters of the city. It has gained steadily, month after month, until it now bids fair to become one of the strongest colored organs in the country. It is outspoken at times, not hesitating to criticise whenever it thinks criticism is in order. The current issue, in which it pitches into the party managers of the XIth District for refusing to admit Republicans of good standing to membership in the association, is an illustration of this statement.

A meeting of the XVIIth Assembly District Repub lican League Club, of which Deputy Collector Beryman is president, and John H. Trewhells is secretary, will be held to night to arrange for the club's annual mid-

It is settled that Howard M. Smith will be elected president of the Union League Club of Brooklyn at the election on Thursday night.

NOTES ABOUT TURF AFFAIRS.

At a conference held last night by representatives of all the racing associations interested in the bills before the New-Jersey Legislature, an agrement was effected which will give the measures a new lease of life. The bill as outlined at the meeting is a leval option bill, which should prove satisfactory to all, as is leaves the number of days on which racing may take place in the hands of the citizens of the county in which the track or tracks are situated. It is said that mutual concessions were made and that the hatchet was buried, and that all the warring factions would be in the contestions. jockeys would receive licenses to train and ride on any track which they wished when the bill became a law. The Rev. Dr. Samuel H. Virgin at last night's service in Pillum Congregational Church presented a forcible argument against the passage of the liquor bill now before

the Legislature. He said: "It is an effort to make the sale of liquor continuous and freer from successful appo-sition," and he quoted nineteen sections of the bill in proof of this statement, besides showing that it virtually repealed the existing twenty-seven restrictive enactments thout providing similar restrictions in the proposed law.
"The liquor question," Dr. Virgin continued, "Is a "The liquor question," Dr. Virgin continued, "is a world-problem, and this new phase of it has been brought about by the activity of the liquor party. It is rendered more complex by the mixed population which makes upour great State. The liquor legislation of New-York State is in a moddle. The present bill has brought about a crisis in the temperance problem. It is an effort to secure immunity from any resulting dymage caused by drink, so that the wife or child cannot obtain redress. It gives an appeal from the derisken of the Expise Com-It gives an appeal from the decision of the Excise Cer missioners. It increases the opportunity of escape from punishment when the law is violated. Its tendency is to debauch the public conscience and destroy the privilege of local option, and if passed it will give the largest liberty fer the sale of liquor and the indulgence of all rotous deaires throughout the State. The friends of the bill must consider the present Legislature fools who can be bamboosted or knows who can be bought. I am confident that they are neither, and that they will prove them. dent that they are neither, and that they will prove selves to be possessed of high moral purposes and clear judgment by killing the hill." Dr. Virgin advised every one to write personally to his representative in the Legislature urging him to oppose the bill.

A COSTLY LAMP FOR A CHURCH. A new sanctuary lamp is now being made for St. Augustine's Roman Catholic Church, at Fifthave, and Bergen st. The lamp, which is of silver fretted work and studded with rich jewels, will hang from the middie arch of the chancel, and from the ball by which it is suspended to the bottom of the cross which hangs from the base is a distance of eighteen feet. The circle which forms the base of the lamp is five feet in diameter and upon it stand the figures of seven angels of life size, symbolizing the seven gifts of the Holy Ghost. The angels hold four jewelled lights above their heads, the sapphire representing celestial con-templation, the ruby divine love, the crystal purity, and the emerald unfuling youth. The lamp, it is said, will cost about \$5,000.

C. P. HUNTINGTON TO GO SOUTH.

A dispatch from the city of Mexico, received here on Saturday, said that C. P. Huntington was soon to start on a trip to Mexico to complete the arrangements for the transfer of the Mexican Gulf Hallroad to the southern Partie Company. Mr. Huntington said, when asked about it, that there was no truth in the statement as regards the reported rall; ond deal. It was true that he was expecting to make his usual spring visit to California, and he would probably pass through some Mexican cities. His trip had no especial significance, and there were no negotiations pending with regard to the Mexican Gulf and the Southern Pacific Companies.
